Purpose of this agreement

The Riverdale High School Business Technology Department maintains media equipment in Room 27 for approved instructional use. This equipment was budgeted for and is intended primarily to support the courses and programs taught through the RHS Business Technology Department, including Yearbook, Multimedia Communications, Marketing Communications, Small Business Management, student media, school publications, school promotions, and related class projects.

This agreement gives the student named above permission to request and check out approved photo/media equipment through the RHS CheckMate equipment checkout system during the school year, as long as the student follows all checkout procedures, school rules, district policies, and teacher/advisor directions.

This agreement does not guarantee equipment availability. Equipment checkout is a privilege, not a right.

Priority of equipment use

Room 27 media equipment is primarily reserved for Business Technology Department courses, classroom instruction, unit projects, yearbook coverage, multimedia production, school store/promotional work, and other approved department needs.

Students who are not currently enrolled in Business Technology Department courses may be allowed to check out equipment as a courtesy for approved school-related purposes. Equipment may not always be available for use outside of Room 27 programs.

The Business Technology Department, Room 27 teacher/advisor, school administration, or authorized staff may deny, limit, delay, or recall equipment checkout when equipment is needed for Business Technology class instruction, department projects, yearbook or multimedia deadlines, school events, equipment maintenance,

inventory, or other school needs. If equipment is recalled, the student agrees to return it by the requested deadline.

CheckMate equipment tracking

All equipment checked out under this agreement must be checked out and checked back in through RHS CheckMate or by an authorized staff member. CheckMate may track equipment using asset tags, NFC tags, QR codes, barcodes, serial numbers, checkout records, student names, dates, times, condition notes, and return status. Each individual checkout will be recorded separately in CheckMate.

Equipment covered by this agreement

Equipment may include, but is not limited to: cameras, camera kits, lenses, microphones, tripods, stabilizers, lights, light stands, backdrops, backdrop stands, batteries, chargers, SD cards, card readers, cables, adapters, mounts, protective cases, camera bags, and other approved photo/media production accessories.

Student and parent/guardian responsibilities

Please initial each statement. These expectations apply every time equipment is checked out through CheckMate during the school year.
